

SKF TMMR 8F/SET

Reversible jaw puller set

The SKF Reversible Jaw Puller Set TMMR 8F/SET contains eight TMMR pullers designed for internal and external pulling jobs of bearings and other components such as gears and pulleys. All pullers can be mounted with the claws facing inside or outside, making it a versatile and essential tool for mechanical workshops. The set includes eight different sized pullers, a spring loaded nose piece for extra stability and a convenient puller stand and a tube of spindle lubricant.

- Comprehensive set of eight reversible jaw pullers for internal and external pulling applications
- Easy adjustment of the width of grip with self-locking arms
- Enhanced corrosion resistance and easy cleaning with zinc passivated arms and beam
- No permanent deformation of puller arms when used up to maximum withdrawal force
- Supplied with spring-loaded nose, convenient puller stand and spindle lubricant

Logistics

Country of Manufacturing (COM code) 35 - Slovenia

Product net weight 46.3 lb

eClass code 23-05-19-01

UNSPSC code 27111712

Properties

Recommended applications For the dismounting of bearings, gears, pulleys and other industrial ring shaped components in industrial, construction and agricultural applications with an interference fit on the shaft

Special features Set of 8 pullers on a special storage rack, with space for additional items. Storage rack is provided with a product selection table with product information.
